Providing Creative Solutions to Common Problems

PREPARED FOR ALTON LAW, LLC · CAPABILITIES OVERVIEW

Receivables Recovery for Your Client's File

Process, rates, upfront costs, documentation and timelines — in a form you can forward

Prepared for **Alton Law, LLC** · August 2026

01 — INTRODUCTION

For a client weighing their options

Daniela — you asked for our process, rates, upfront costs, documentation requirements and timelines so your client can compare agencies side by side. This overview covers all of it, in a form you can forward without editing.

The short version: pure contingency, no upfront cost of any kind. No retainer, no setup fee, no placement fee, no minimum, no monthly or annual fee. If nothing is recovered, nothing is invoiced — the fee comes only out of dollars actually collected, so Southwest Recovery carries the cost and the risk of working the file.

Southwest Recovery Services has worked business and consumer receivables on pure contingency since 2004, from 12 offices across 7 states with six in Texas. **Burleson and Tarrant County are core operating territory.** One caveat worth stating plainly: a contingency rate is priced against the file. Until we know whether the balances are consumer or commercial, how many there are, how large, how old and what documentation exists, any percentage quoted is a guess — and a guess is worth nothing to a client comparing real offers.

02 — AT A GLANCE

Two decades of receivables recovery — Texas and nationwide

An accredited, licensed recovery partner your client can diligence independently.

2004 Recovering commercial receivables since	**$1.0B+** Receivables placed (all industries)	**$79M+** Recovered for clients	**880K+** Accounts worked
51% of matured client portfolios see a recovery	**50** states — nationwide recovery reach	**4.9★** Google client rating	**$0** upfront — no recovery, no fee

- Commercial & B2B collections since 2004
- Nationwide — all 50 states
- 12 offices across 7 states
- Skip tracing on businesses & principals
- Contingency — no recovery, no fee

03 — YOUR QUESTIONS, ANSWERED

Your questions — answered directly

Process, rates, upfront costs, documentation and timelines, in the order you asked.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
1. The collection process	Placement, then review. We validate the file before any outreach, then work it through a documented sequence: a written notice carrying the consumer or commercial validation language required by law, followed by coordinated letter, phone, email and SMS contact timed to when a debtor is most likely to engage. Skip tracing through Experian data locates a current address, phone and employment when someone has gone quiet. Where authorized and where the account qualifies, balances can be reported to Equifax and Experian. Everything is logged and auditable on every account.
2. Rates and fees	Pure contingency. Your client is quoted a single stated percentage that appears on the agreement and is agreed in writing before a single account is placed, and nothing else is ever billed. The percentage itself is priced against the file — consumer versus commercial, balance size, account count, age since last payment and documentation quality all move it. We quote once we have seen a representative sample, and we quote honestly rather than low.
3. Upfront costs	None. No retainer, no setup fee, no placement fee, no minimum, no monthly or annual fee, and no upfront legal expense. If we recover nothing, your client is invoiced nothing — no clawback, no minimum draw, no cancellation charge. Accounts can be recalled at any time in writing without penalty; the only carve-out is that contingency stands on dollars already recovered.
4. Documentation to begin	The contract or signed agreement, the itemized invoice or statement, the payment ledger with the date of last payment, any change orders or approvals, the written communication trail, and any demand already sent. Plus debtor identifiers: full legal name or exact registered entity name, service and mailing address, phone and email. If the agreement carries an interest or late-fee provision, that page matters — it may be recoverable. Thin files still get worked; complete files recover materially better.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
5. Timelines and other terms	Outreach typically begins within 24 to 48 hours of a documented placement. Fresh accounts, inside roughly 90 days of last payment, often resolve in 30 to 60 days; balances that have aged a year recover a fraction of that, which is the single strongest argument for placing sooner. Settlements require your client's authorization — per account, or inside a standing floor they set. Legal escalation is optional and never happens without written authorization; we are not a law firm, so suit runs through a Texas-licensed attorney and any court costs are disclosed and authorized in advance.

THE SWRS CLIENT PORTAL

One account or a full ledger — and full visibility throughout

Every placement runs through a secure portal. Nothing to install, no volume commitment, and your client sees status in real time rather than waiting on a monthly report.

SINGLE OR BULK PLACEMENT

Enter one account by hand or upload an AR / aging export from QuickBooks or a spreadsheet — we map the columns.

SECURE DOCUMENT EXCHANGE

Contracts, invoices, statements and correspondence move inside the portal — the documentation that resolves a dispute fast.

REAL-TIME REPORTING

Run and export account and recovery reports on demand.

DIRECT-PAYMENT REPORTING

Log payments made straight to your client, so balances stay accurate and nobody is contacted for money already paid.

04 — CASE STUDIES

SWRS recovery case studies

Actual placed-versus-recovered figures from Southwest Recovery's book, anonymized by sector. Because the sector and balance profile of your client's file are not yet known, this is a deliberately broad spread rather than a flattering selection — the low results sit next to the high ones. What separates them is rarely effort: it is documentation quality and how long the balance sat before placement.

Anonymized by sector from Southwest Recovery's book; individual client names withheld. Results vary by account age, balance, documentation quality and industry. We do not publish blended portfolio averages.

WHAT ACTUALLY MOVES THE NUMBER

The two variables your client controls

A comparison between agencies usually turns on the quoted percentage. In practice the percentage matters far less than these two.

DOCUMENTATION

A contract, an itemized invoice, a clean payment ledger and the written trail turn an objection into a resolvable conversation. Thin files get worked; complete files recover materially more.

AGE AT PLACEMENT

A balance placed inside 90 days of last payment recovers a multiple of one placed at a year. On contingency there is no cost to placing sooner, which makes waiting the most expensive choice available.

Recovery figures vary by account age, balance, documentation quality and industry. Southwest Recovery gives an honest read on a file before it is worked, and says so when an account is unlikely to recover.

05 — WORKING WITH COUNSEL

A recovery partner that keeps your client's options open

Placing an account with a contingency agency does not close any door. Nothing is compromised, released or referred to suit without written authorization, and the file comes back on request.

Consumer and commercial

Both are worked in-house under the applicable framework — FDCPA, Regulation F and TCPA on consumer balances; commercial collection practice on B2B.

Texas is core territory

Six of our twelve offices are in Texas, with recovery reach across all 50 states. Burleson and Tarrant County are well inside our footprint.

Nothing happens without authorization

Settlement authority and any legal referral stay with your client. Accounts recall at any time, in writing, without penalty.

Documented and defensible

Compliance guardrails are enforced inside the workflow, with every contact logged — which matters when counsel is standing behind the file.

06 — AI-POWERED COLLECTIONS

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier, better-targeted contact that resolves accounts faster and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

07 — MEET THE FOUNDER

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

> "Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.
>
> **— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services**
