Providing Creative Solutions to Common Problems

RESIDENTIAL PROPERTY RECOVERY · CAPABILITIES OVERVIEW

Debt Collection Agency for Businesses

Recovering unpaid rent & move-out balances for Las Vegas property managers — on pure contingency

Prepared for **aMaxima Realty & Property Management Group** · July 2026

01 — INTRODUCTION

A recovery partner for the balances tenants leave behind

To Raul and the aMaxima team — a property-management book earns its money door by door, and loses it the same way: the tenant who vacates owing rent, the eviction that ends with a balance no deposit covers, the move-out statement that never gets paid. Chasing those dollars in-house costs broker hours that never scale — and letting them sit costs the owners you answer to.

A move-out balance isn't a bookkeeping line — it's an owner-client's money. Every month it sits unworked, the tenant's contact data goes stale and the odds of recovery drop.

Southwest Recovery Services has worked receivables on **pure contingency since 2004** — $0 upfront, no minimums, recovery reach across all 50 states. You place tenant accounts through a secure portal straight from your property-management software, and we work them. No recovery, no fee.

02 — AT A GLANCE

Two decades of recovery — sized for a family firm

A documented, professional process behind $975M+ in placements — the same engine, whether you manage eight doors or eight hundred.

2004 Recovering commercial receivables since	**$1.0B+** Receivables placed (all industries)	**$79M+** Recovered for clients	**880K+** Accounts worked
51% of matured client portfolios see a recovery	**50** states — nationwide recovery reach	**4.9★** Google client rating	**$0** upfront — no recovery, no fee

- Commercial & B2B collections since 2004
- Nationwide — all 50 states
- 12 offices across 7 states
- Skip tracing on businesses & principals
- Contingency — no recovery, no fee

03 — YOUR QUESTIONS, ANSWERED

Your questions — answered directly

Exactly what you asked, in order — how it works, what the rent-collection process looks like, and the paperwork we need from you.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
1. How does our debt collection work?	You place a past-due tenant account through our secure portal and outreach begins within 24–48 hours: professional, FDCPA-compliant demand contact across mail, phone, email and text; skip tracing when a tenant has moved on; payment plans when that's what actually gets you paid; credit-bureau reporting; and pre-legal review for judgment-worthy balances. Pure contingency — $0 upfront, and we earn a pre-agreed percentage only of what we recover.
2. The process on unpaid rent, step by step	Place the account with its file → we validate the balance against the lease and final ledger → locate and contact the former tenant → report the debt → negotiate payment in full or a structured plan → recovered funds are remitted to you with a full statement. Your team watches every account move in the portal, 24/7.
3. The paperwork we need	Lighter than most expect — per account: the signed lease, the final tenant ledger (a one-click export from your property-management software), the move-out statement or itemized damages, and the contact details from the rental application. The portal takes the files directly; no re-keying.
4. Credit reporting that tenants feel	We report to **Equifax and Experian** — including **Experian RentBureau at no charge**, the rental-specific bureau landlords and screening services pull. A reported balance follows a former tenant to their next rental application, which is the strongest lawful motivator there is to resolve it.
5. What it costs	Nothing upfront — ever. Contingency rates on residential property accounts are tiered by the age and size of the balance, which is why the single biggest recovery lever is placing sooner rather than letting a balance drift. We'll put an honest, age-based read on your accounts before anything is worked.

THE SWRS CLIENT PORTAL

Ledger-ready intake and full visibility, on demand

Every placement is managed through our secure portal — built to take the exports your property-management software already produces, and to show your team exactly where every account stands.

LEDGER-READY PLACEMENT

Upload tenant ledgers and move-out statements straight from Buildium or any PM platform — we map your columns, no re-keying.

SECURE FILE EXCHANGE

Leases, ledgers, itemized damages and photos move safely inside the portal — the documentation that resolves disputes fast.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — owner-statement-ready numbers whenever you need them.

DIRECT-PAYMENT REPORTING

Log payments a tenant makes directly to your office, so balances stay accurate and no one is over-contacted.

THE COST OF WAITING

Why fresh tenant balances recover best

A move-out balance is most collectible in its first months, while contact data is warm and the tenant is applying for their next rental. Industry research from the Commercial Collection Agencies of America puts collectability at **under 25% once a balance passes a year old**. The highest-leverage change a property manager makes isn't chasing harder — it's placing sooner.

THE AGE CURVE

Fresh balances (under ~90 days from move-out) resolve fastest — the tenant is findable and motivated by their next application.

THE STANDING RULE

A fixed "place at 30–60 days after move-out" policy recovers materially more than case-by-case chasing — and on contingency there's no cost to placing.

Recovery figures vary by portfolio; SWRS gives an honest, age-based read on your accounts before anything is worked.

05 — BUILT FOR PROPERTY MANAGEMENT

We speak your rent roll

Tenant receivables have their own recovery profile — consumer-debt rules, transient debtors, deposits that never cover the loss. Our playbook is built for exactly that.

Move-out & eviction balances

Unpaid rent, damages beyond the deposit, early terminations and eviction-related balances — validated against the lease and ledger before contact begins.

Tenants who scatter

Skip tracing built for renters: locating former tenants across state lines so the demand actually lands.

RentBureau reporting — free

Experian RentBureau rental reporting at no charge, plus Equifax and Experian — the balance follows the tenant, and offering it makes your management pitch stronger to owners.

Compliance that protects your brand

FDCPA / Reg F guardrails on every consumer account — firm recovery that never puts aMaxima's local reputation at risk.

06 — AI-POWERED COLLECTIONS

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

07 — MEET THE FOUNDER

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

> "Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.
>
> **— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services**

Firm, professional recovery protects your owners and aMaxima's name — and gets the balance paid.
