Providing Creative Solutions to Common Problems

RESIDENTIAL RENTAL & POST-EVICTION RECOVERY · CAPABILITIES OVERVIEW

Receivables Recovery for Residential Rentals

Former-tenant balances, post-eviction judgments and skips — worked on pure contingency, under FDCPA and Reg F

Prepared for **America Realty Center, Inc.** · September 2026

01 — INTRODUCTION

The balance that walks out with the keys

To Julie Xu and the America Realty Center team — thank you for reaching out. A former-tenant balance is one of the hardest dollars in residential real estate to collect: the resident is gone, the forwarding address is usually wrong within ninety days, and the judgment you fought for in magistrate court is only as good as your ability to find the person it names.

You asked eight specific questions. Every one of them is answered in order on the next page — including the two most owners never get a straight answer to: what actually recovers, and who controls a settlement.

Southwest Recovery Services is an outsourced receivables recovery partner working residential rental and post-judgment balances on **pure contingency since 2004**, from 12 offices across 7 states including Georgia. You place accounts through a secure portal; we locate, contact and work them under full FDCPA and Reg F guardrails. No recovery, no fee.

02 — AT A GLANCE

Two decades of consumer recovery — licensed in Georgia

A documented, compliant process built for consumer balances where the debtor has already moved on — skip tracing, credit reporting and legal escalation under one contingency agreement.

2004 Recovering commercial receivables since	**$1.0B+** Receivables placed (all industries)	**$79M+** Recovered for clients	**880K+** Accounts worked
51% of matured client portfolios see a recovery	**50** states — nationwide recovery reach	**4.9★** Google client rating	**$0** upfront — no recovery, no fee

- Commercial & B2B collections since 2004
- Nationwide — all 50 states
- 12 offices across 7 states
- Skip tracing on businesses & principals
- Contingency — no recovery, no fee

03 — YOUR QUESTIONS, ANSWERED

Your eight questions — answered in order

Exactly what you asked, in the order you asked it, with the detail that matters for a single-family residential rental book carrying post-eviction judgments.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
1. Single-family residential rentals	Yes — a core part of our consumer book. We work former-tenant balances for single-family rental managers, small residential portfolios, multifamily operators and HOAs: unpaid rent, late fees, lease-break and early-termination charges, damage beyond the deposit, billed-back utilities and post-eviction deficiency balances.
2. Contingency rate	Pure contingency — a pre-agreed percentage of what we actually recover, and nothing on an account that does not collect. The percentage moves with the age, balance and annual volume you place, so we quote once we have seen a representative sample of your aging. Judgment accounts and previously-worked accounts price differently from fresh move-outs, which is why we ask for the sample first.
3. Upfront, setup or placement fees	None. No upfront cost, no retainer, no monthly minimum, no per-account placement fee, and no charge for accounts we fail to collect. The only separate one-time cost is optional enrollment in consumer credit reporting, disclosed in writing with the agreement before you commit.
4. Skip tracing and interstate	Both, and this file needs them most. Skip tracing runs on the Experian stack — address, phone, employment and asset location on a resident who moved without notice. Recovery reach is nationwide across all 50 states, so a tenant who left Georgia stays workable. No separate skip-tracing charge; it is inside the contingency.
5. Credit bureau reporting	Yes, for eligible accounts. We report to **Equifax and Experian**, and for rental debt also to **Experian RentBureau** — the rental-payment database screening companies pull when a former resident applies for their next lease. On rental balances that is frequently the strongest single point of leverage. Reporting is governed by FCRA: accounts validated, disputes investigated, balances updated.
6. Judgments and legal enforcement	Yes — post-judgment recovery is a distinct track. Be clear on the structure: SWRS is a recovery agency, not your law firm. We pursue the judgment debtor directly through tracing, demand and negotiation; where enforcement needs court action — garnishment, levy, domesticating a Georgia judgment out of state — the account goes to licensed counsel in our legal-forwarding network, on your written authorization, with cost and timeline disclosed first.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
7. Settlement authority	You keep it. Settlements are governed by the authority you grant in the agreement. Many clients pre-authorize a standing discount range so routine settlements close on the phone; anything outside it returns to you in writing. If you want every settlement signed off individually, we set it up that way.
8. Documents to place an account	Standard balance: signed lease, final ledger or move-out statement, itemized deposit disposition, last known address, and any phone or email on file — plus date of birth and SSN where your application captured them, which materially improve both tracing and credit reporting. Judgment account: add the certified judgment, case number and county, and any post-judgment payment record.

THE SWRS CLIENT PORTAL

Place an account in minutes, then watch it work

Every placement is managed through our secure portal — built so a small office can place one account or a full move-out batch without building a process around it.

PLACE ONE OR PLACE A BATCH

Submit a single judgment account through the form, or upload a move-out ledger export from AppFolio, Buildium, Rent Manager, Yardi or a spreadsheet — we map your columns, no re-keying.

SECURE DOCUMENT EXCHANGE

Send leases, ledgers, deposit dispositions and certified judgments safely inside the portal — the documentation that holds up when a former resident disputes.

REAL-TIME REPORTING

Run account status and recovery reports on demand, any hour — not a monthly PDF from your account manager.

DIRECT-PAYMENT REPORTING

Log payments a former resident sends straight to your office, so balances stay accurate, credit reporting stays correct and no one is contacted over money they already paid.

04 — CASE STUDIES

SWRS Residential Rental Recovery — Actual Results

Real placed-versus-recovered figures from Southwest Recovery's residential rental and property-management book, anonymized by sector. These are not blended averages and they are not curated to flatter: the spread below runs from 67% down to 3%, and the pattern in it is the most useful thing on this page.

MULTIFAMILY RENTAL OPERATOR

21 accounts placed

$115K recovered

of ~$170K placed

67% recovered

REGIONAL RESIDENTIAL LANDLORD

275 accounts placed

$88K recovered

of ~$356K placed

25% recovered

SMALL RESIDENTIAL PORTFOLIO

37 accounts placed

$44K recovered

of ~$184K placed

24% recovered

SINGLE-FAMILY RENTAL MANAGER

35 accounts placed

$41K recovered

of ~$188K placed

22% recovered

REGIONAL PROPERTY MANAGEMENT FIRM

378 accounts placed

$114K recovered

of ~$740K placed

15% recovered

HIGH-VOLUME SFR MANAGER

1,208 accounts placed

$291K recovered

of ~$10.2M placed

3% recovered

Anonymized by sector from Southwest Recovery's book; individual client names withheld. Results vary by account age, balance, documentation quality and industry. We do not publish blended portfolio averages.

WHAT THE SPREAD IS TELLING YOU

Documented and early beats bulk and aged — by an order of magnitude

Read the six results above in order and one pattern runs straight through them. The books that recover at the top of the range are small, individually documented and placed while the trail is still warm. The 3% result at the bottom is a portfolio of more than twelve hundred aged tenant balances dumped in bulk with thin paperwork — the same agency, the same process, a completely different outcome.

WHY THE TRAIL MATTERS

A former resident is findable for roughly the first 90 days after move-out. After a year, the phone is disconnected, the forwarding order has lapsed and the employer on the application has changed — recovery falls to a fraction of what it was.

WHERE YOUR FILE SITS

A single documented judgment account with a certified order, a lease and a ledger behind it is the profile that performs at the top of this range, not the bottom. Placing your future move-outs as they happen, rather than at year-end, is the change that compounds.

Recovery varies by portfolio, age and documentation. SWRS gives an honest, age-based read on a representative sample before any accounts are worked — including telling you when a balance is not worth placing.

05 — BUILT FOR RESIDENTIAL RENTAL RECOVERY

Finding the resident is most of the job

Commercial collection is a negotiation with a business that still exists at a known address. Former-tenant collection is a search problem first and a negotiation second — which is why the data stack and the compliance discipline behind it matter more here than anywhere else in receivables.

Skips and gone-no-forwarding

Experian-backed address, phone, employment and asset tracing on a resident who left without notice — the single highest-leverage step on a move-out balance, included in the contingency.

Post-eviction judgment balances

Direct post-judgment recovery, with garnishment, levy and out-of-state domestication routed to licensed counsel in our legal-forwarding network on your written authorization.

Experian RentBureau reporting

Rental-specific credit reporting alongside Equifax and Experian — the balance surfaces when the former resident applies for their next lease, which is when people pay.

FDCPA and Reg F discipline

Contact frequency caps, validation notices, dispute handling and consent checks enforced inside the workflow — documented and defensible, so recovery never becomes your liability.

06 — AI-POWERED COLLECTIONS

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

07 — MEET THE FOUNDER

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

> "Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.
>
