

Providing Creative Solutions to Common Problems

PROPERTY MANAGEMENT & RENTAL RECEIVABLES · CAPABILITIES OVERVIEW

Debt Collection Agency for Businesses

Recovering unpaid rent, tenant balances and owner receivables — on pure contingency

Prepared for **TABA Property Management** · September 2026

A recovery partner for the balances your office can't get answered

To the TABA Property Management team — the hardest dollars a property operation collects are the ones a former tenant or an owner stops paying once they've moved on: skipped final balances, damage charges, and receivables that simply go quiet.

Unpaid rent and tenant balances aren't just a leasing problem — they're a cash-flow problem. Every balance that drifts past terms ties up money you've already earned and edges toward a write-off.

Southwest Recovery Services is an outsourced receivables recovery partner working consumer and commercial balances on **pure contingency since 2004**, nationwide. You place accounts through a secure portal that takes an export from your property-management system, and we work them. No recovery, no fee.

Two decades of commercial recovery — nationwide

A documented, compliant recovery process on pure contingency since 2004 — scale you can add without building a collections desk.

2004 Recovering commercial receivables since	\$975M+ Receivables placed (all industries)	\$76M+ Recovered for clients	800K+ Accounts worked
52% of placed accounts see a recovery	50 states — nationwide recovery reach	4.9★ Google client rating	\$0 upfront — no recovery, no fee

Commercial & B2B collections since 2004

Nationwide — all 50 states

12 offices across 7 states

Skip tracing on businesses & principals

Contingency — no recovery, no fee

Your questions — answered directly

What happens to the balances you place, in plain terms — for a book that runs both resident and owner receivables.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
1. Fee structure	Pure contingency — \$0 upfront, no retainer, no minimum. You pay a pre-agreed percentage only of what we actually recover, quoted once we've seen a representative sample of your aging.
2. Skipped / non-responsive residents	The core of what we do: skip tracing to re-locate a former tenant who has moved, plus persistent compliant multi-channel outreach. A third-party demand alone resolves a meaningful share of silent balances.
3. Disputed charges	A dispute pauses recovery, it doesn't end it. We validate against the lease, the ledger, the move-out inspection and photos — separating a genuine dispute from a stall.
4. Consumer & commercial, together	Resident balances worked under full FDCPA / Reg F consumer rules; commercial and owner balances worked as B2B AR. One partner, one portal.
5. Onboarding	Bulk-upload an aging export from your PM system — we map your columns. Outreach begins within 24–48 hours of a documented placement.

**THE SWRS CLIENT
PORTAL**

Billing-system-ready intake and full visibility, on demand

Every placement runs through our secure portal — built to take your A/R exports and give your team live, self-service visibility throughout recovery.

BILLING-SYSTEM-READY PLACEMENT

Upload an A/R / aging export — we map your columns, no re-keying.

SECURE FILE EXCHANGE

Send invoices, contracts and supporting docs safely inside the portal — the documentation that resolves disputes fast.

REAL-TIME REPORTING

Run and export account and recovery reports on demand — live status on every placed balance.

DIRECT-PAYMENT REPORTING

Log payments a debtor makes directly to you, so balances stay accurate and no one is over-contacted.

SWRS Property & Rental Recovery Case Studies

Actual placed-versus-recovered results from Southwest Recovery's property and rental book, anonymized by sector. Rental books are bimodal — fresh balances pay, aged charge-offs recover far less — so the spread below is honest, not flattering.

MULTIFAMILY PORTFOLIO

Anonymized by sector from Southwest Recovery's book; individual client names withheld. Results vary by account age, balance, documentation quality and industry. We do not publish blended portfolio averages.

THE AGE CURVE

Why placing sooner recovers more

Rent and tenant balances are most collectible while fresh — the resident is still reachable and the ledger is still clean. Every month a balance ages, contact data and leverage erode.

FRESH VS. AGED

Accounts under ~90 days past due often resolve in 30–60 days; balances left to sit a year collect a fraction of that.

A STANDING RULE

A fixed ‘place at 90 days’ policy recovers materially more than letting balances drift toward write-off — and on contingency there’s no cost to placing.

Recovery figures vary by portfolio; SWRS gives an honest, age-based read on a representative sample before any accounts are worked.

Turning written-off balances back into cash

Resident and owner balances behave like the rest of your receivables: the longer they sit, the less they return. Placing on a schedule beats letting them drift toward write-off.

Skip & non-responsive

Skip tracing on former residents and the businesses behind commercial accounts, plus persistent compliant demand.

Disputed charges

Documentation-driven validation — lease, ledger, move-out photos — that separates a real dispute from a stall.

Every balance type

Final rent, damage and cleaning charges, lease-break fees, owner and vendor receivables — one partner.

Nationwide reach

Recovery across all 50 states from 12 offices in 7 states.

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.

— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services
