

Providing Creative Solutions to Common Problems

MEMBERSHIP & TUITION RECEIVABLES RECOVERY · CAPABILITIES OVERVIEW

Debt Collection for Martial-Arts Schools

Recovering defaulted enrollment agreements, unpaid packages & lapsed tuition — on pure contingency

Prepared for **Reunion Martial Arts** · July 2026

A recovery partner for the tuition that stops coming in

To Scott and the Reunion Martial Arts team — thank you for reaching out. A school built on recurring memberships runs into the same problem every studio does: a family signs an enrollment agreement or an annual training package, then the auto-pay fails or the account lapses — and you're left with an earned balance while a student quietly stops showing up.

Lapsed tuition isn't a front-desk problem — it's a cash-flow problem. Defaulted enrollment agreements, unpaid annual training packages and failed recurring auto-pay quietly age into write-offs while your team is focused on the mat, not chasing statements.

Southwest Recovery Services works membership and tuition receivables on **pure contingency since 2004**. We do the chasing so you don't have to — **reputation-first**, fully compliant, and respectful of the families and community your school is built on. You place accounts through a secure portal that takes a simple member/billing export. No recovery, no fee.

Two decades of receivables recovery — nationwide

A documented, compliant recovery process a busy school can hand off completely — no software to buy, no awkward collection calls, no risk to the name and reviews you've built in the community.

2004 Recovering commercial receivables since	\$975M+ Receivables placed (all industries)	\$76M+ Recovered for clients	800K+ Accounts worked

The questions a school owner asks — answered directly

Exactly how we work, in plain terms, before a single account is placed.

YOUR QUESTION	SOUTHWEST RECOVERY SERVICES
1. Fee structure	Pure contingency — \$0 upfront, no retainer, no monthly minimum. You pay a pre-agreed percentage only of what we actually recover. Nothing comes out of pocket to start — if we don't collect, you owe nothing.
2. Will this hurt our reputation with families?	This matters most for a community school that lives on reviews and referrals, and it's how we're built. Recovery is professional and fully compliant — no threats, no misrepresentation. We represent Reunion Martial Arts respectfully, so a past-due family is handled with care.
3. What can we place?	Defaulted enrollment / membership agreements, unpaid annual training packages, failed recurring tuition or auto-pay (EFT), and balances on birthday parties, camps or programs. Residential balances are consumer debt, worked under FDCPA / Reg F.
4. What about a family that stopped responding?	Skip tracing to locate the responsible party (parent or guarantor on the agreement), then persistent, documented, respectful contact. Reaching a non-responsive account is exactly where an outside agency outperforms the front desk.
5. How do I hand off an account?	Low-lift. Export a member / billing report from your studio-management system (Kicksite, Zen Planner, Jibasoft, ChampionsWay, or a simple spreadsheet) with the balance, contact and agreement, and upload it through our secure portal. Outreach begins within 24–48 hours. No new software to learn.

Studio-system-ready intake and full visibility, on demand

Every account you place is managed through our secure portal — built so a busy school can hand off a balance in minutes and check on it any time.

STUDIO-SYSTEM-READY PLACEMENT

Upload a member / billing export from Kicksite, Zen Planner or a spreadsheet — we map your columns, no re-keying.

REAL-TIME STATUS

Check what's been recovered and what's still in progress on demand — no phone tag.

SECURE DOCUMENT EXCHANGE

Send the signed enrollment agreement and billing record safely inside the portal — the paper that settles a dispute fast.

DIRECT-PAYMENT REPORTING

If a family pays the school directly after you place the account, log it in a click so we stop contacting them and your books stay right.

THE COST OF WAITING

Why lapsed tuition recovers best while it's fresh

A membership balance is most collectible while it's fresh — the family's contact and payment details are current, the enrollment is recent, and the relationship is intact. Every month it ages, people move, cards change, and the balance competes with newer bills. The highest-leverage move a school can make isn't chasing harder — it's handing it off sooner.

THE AGE CURVE

Fresh balances (under ~90–120 days past due) resolve at materially higher rates; balances left a year or more collect a fraction of that.

THE STANDING RULE

A simple “hand it off at 90 days” habit recovers more than letting balances drift toward write-off — and on contingency there's no cost to placing.

Real placed-versus-recovered results from SWRS's membership and recurring-billing book, anonymized by sub-sector; individual client names withheld. Membership and tuition balances vary widely by agreement type, account age and documentation; we give an honest, age-based read on a representative sample first.

We understand a recurring-billing ledger

A school that runs on enrollment agreements and recurring tuition creates a specific set of unpaid balances. Our playbook is built for exactly that.

Defaulted enrollment agreements

Signed membership and enrollment agreements a family stopped honoring — validated against the contract, then pursued professionally.

Unpaid annual training packages

Annual packages and program balances paid partway and then abandoned — worked exactly when they lapse.

Failed recurring tuition & auto-pay

Monthly tuition and auto-pay (EFT) that quietly fails — recovered before the balance ages past the point of return.

Reputation-first & compliant

Respectful, FDCPA-compliant contact that protects a community school's name and the families you want back on the mat.

Recovery run on an AI-driven platform — Aktos

Every account SWRS works runs on Aktos, a next-generation, AI-driven collections platform — with compliance built into the workflow, not bolted on afterward. It's how a boutique, people-first agency delivers enterprise-grade speed, consistency, and auditability.

AI workflow automation

Repetitive steps are automated and every account is scored and routed by predicted payment likelihood — so the right strategy reaches the right account first, without manual queue-picking.

Omnichannel outreach

Coordinated email, SMS, and voice, timed to when a debtor is most likely to engage — replacing high-friction call blasts with respectful, data-driven contact.

Compliance built in

FDCPA, Reg F, and TCPA guardrails are enforced inside the automation, with phone-number and consent checks before outreach — documented and defensible on every account.

Real-time dashboards

You see status, segmentation, and recovery performance on your portfolio in real time — full transparency, not a monthly PDF.

API-first intake

Secure SFTP/API placement means accounts start working without data lag — roughly 50% faster acknowledgment and validation of new placements.

Data-driven scoring

Dynamic scoring and segmentation predict payment likelihood and concentrate effort where recovery is most achievable — earlier intervention that trims DSO and reduces disputes.

The result is the combination clients rarely get from a legacy agency: faster cash and cleaner compliance at the same time. Automation accelerates recovery and standardizes documentation, while empathy-first, data-driven contact protects your brand and keeps disputes and complaints low.

Built by a collector with 30 years on the phones — not a CEO with zero collection experience

Steven Dietz

Founder & Chief Executive Officer

Featured in USA Today, International Business Times & Financial Services Review — Top AR Management Service, 2025 · ACA International member.

Steven Dietz didn't come to collections from the corner office — he came from the phones. He started as a collector and credit analyst before he was 20, was tapped by Aaron's to train collectors across 100+ locations, and has spent nearly 30 years in receivables. Along the way he became convinced the industry's bad reputation was a choice, not a requirement: businesses get paid faster when recovery is built on listening and respect rather than aggressive calls and empty threats.

He founded Southwest Recovery Services in 2004 on that principle — a national, family-owned receivables partner that treats every debtor as a person and every client relationship as worth protecting. Two decades later he still coaches the teams and works accounts personally — an operator who has actually done the job, not a manager who has only overseen it.

“Regardless of the means of recovery, our focus is always on preserving goodwill and representing the client professionally.”

— Steven Dietz, Founder & Chief Executive Officer, Southwest Recovery Services
